

The ask - Where we started

The objective of this exercise was not just to build an application, but to apply engineering principles in a structured, production-oriented way.

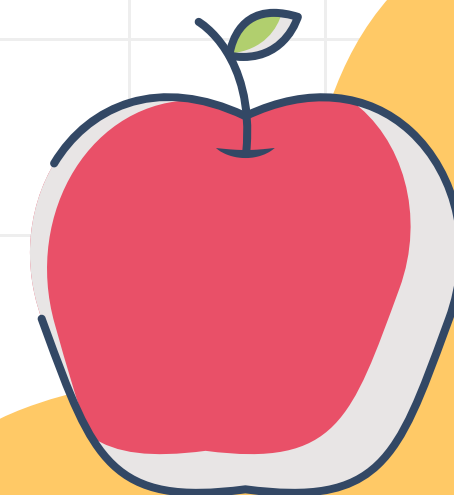

Framework for 5 days

- Each day involved*
- 1. Requirement discussions*
 - 2. Technology deep dives*
 - 3. Continuous reviews with SME*

Questions

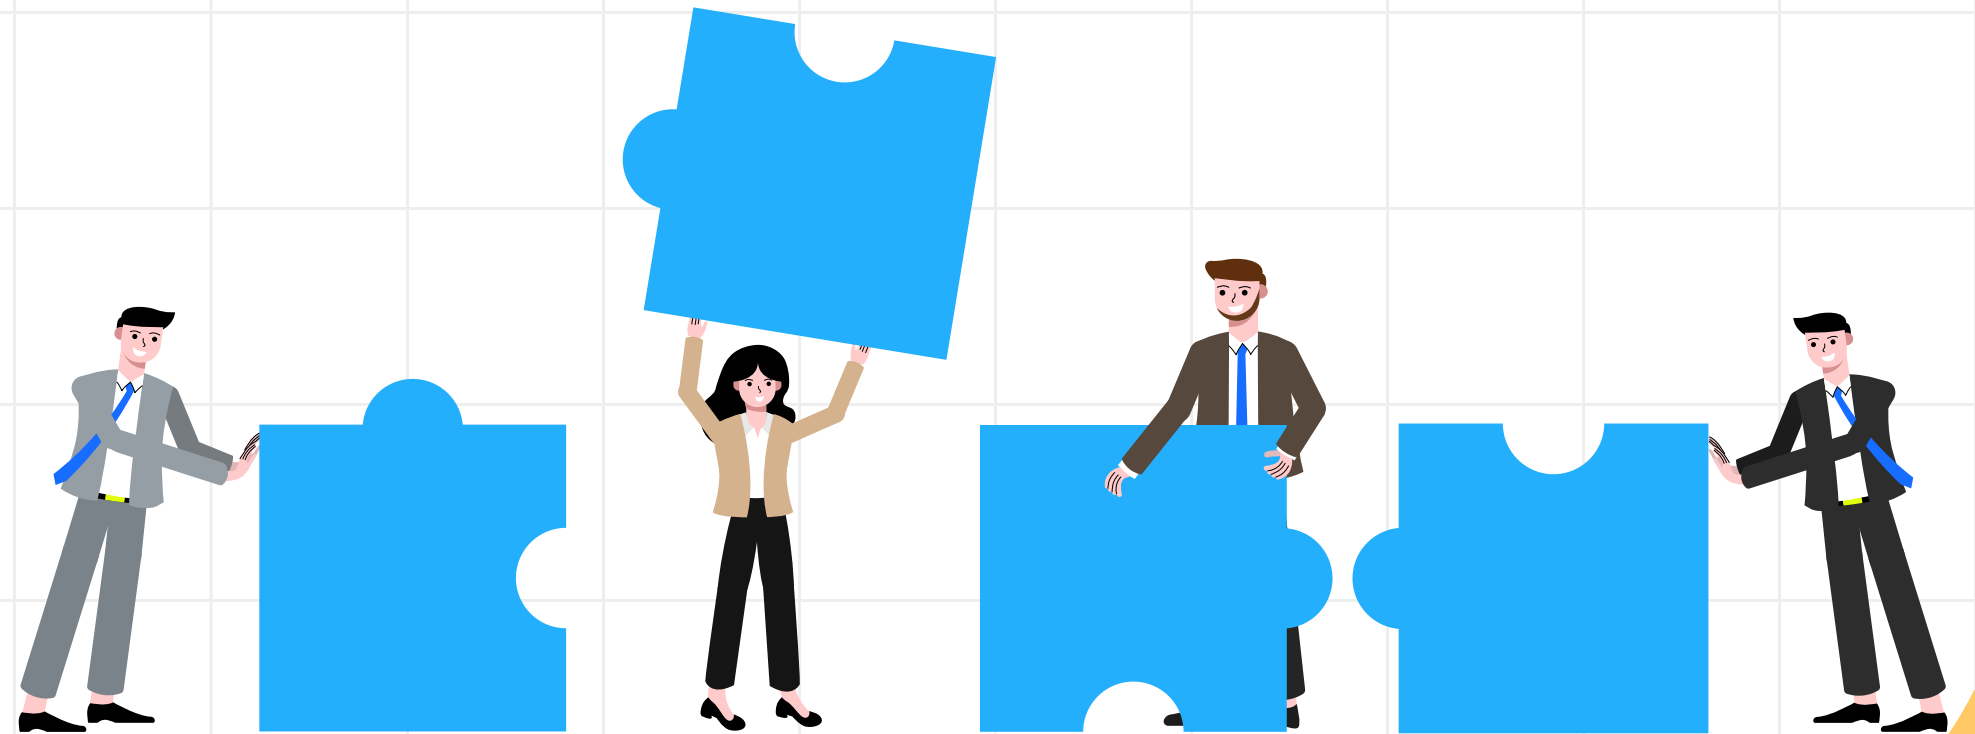

Our team

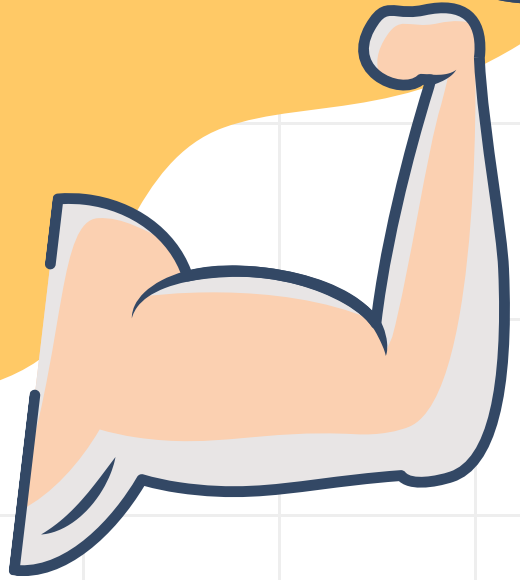

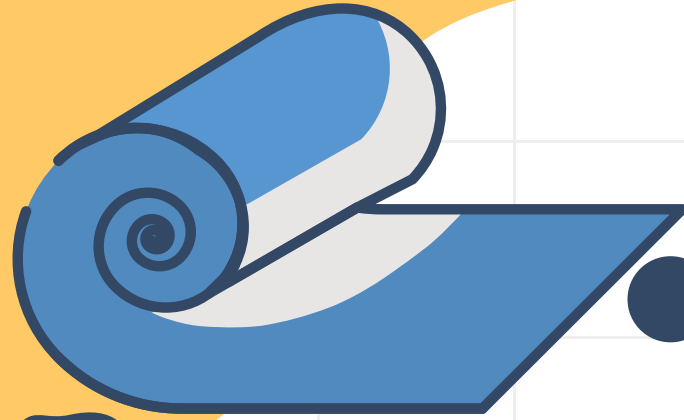

- 1. Shiv Dixit (Team Leader)**
- 2. Nidhi Singh (Vice Lead)**
- 3. Sreecharan S**
- 4. Riddhanya Senapathi**
- 5. Raghav Singh Sengar**
- 6. Shreyansh Delmade**
- 7. Madhav**
- 8. Rajat**
- 9. Param Pratap**
- 10. Varshini**

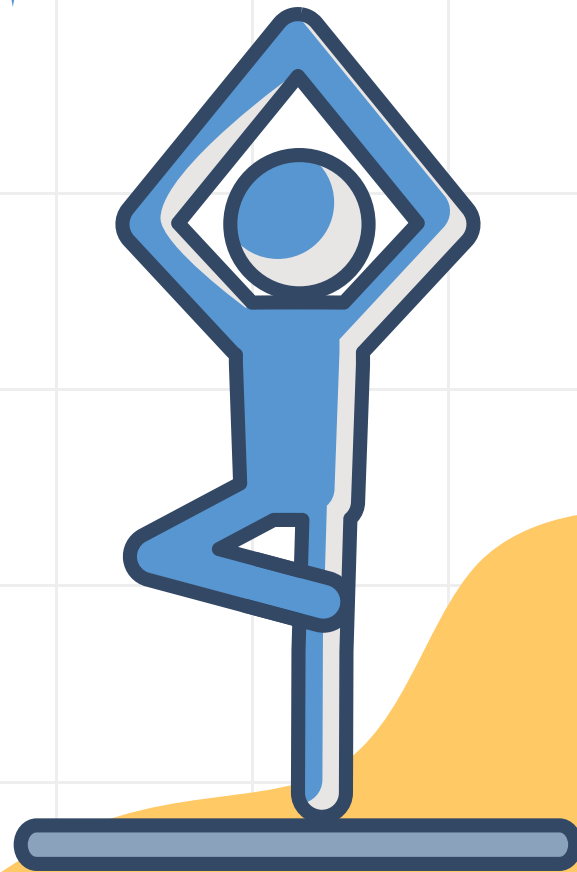

Project Goals

- **Customers:** Register, browse approved gym centers, book and cancel workout slots, pay for bookings, and view their plan and payment history.

- **Gym owners:** Register, add gym centers and slots (subject to admin approval), and view revenue and history.

- **Admin:** Approve gym owners, gym centers, and slots; view center revenue and history
